

**Do you prefer or need to learn 121?**

Discreet clarity from an experienced Trainer Confidante conversant with the singular self-mastery required for different types of leadership and the pace, lone-ness and complexity of the top.

Drawing upon 30 years in business myself, prior to training, I offer tangible and influential ways to discreetly transform current SENIOR LEADERS and people just taking on project or team leadership.

This is tactical know-how for the self from a specialist – to build your career or secure a life ambition.

*These commissions are CONFIDENTIAL – some client organisations are included in list below*

**TRUE COMMUNICATION®**

**TEAM TRAINING or 121 SPECIALIST COACHING**

Differing from, reaching way beyond the one-way dynamo of presentation tips and speaking skills, this inspiring, practical, experiential ‘how to’ training appeals equally to men and women.

First, I educate the nature of True Communication – then introduce experiential practical awareness. Everyone develops individually through vocal quality, connection, presence, listening differently and real time editing for fluency of ideas. All released confidently to the audiences' imagination. Practicing together builds connection amongst participants, which returns to the commissioning company all the benefits of confident and inspired people working together more professionally.

Participants report that this training is as much ‘for themselves’ as for their current professional role. All are pleasantly surprised by the permanent impact and pleasure of acquiring True Communication.
